

1050 Coney Island Drive • Reno, Nevada 89431  
(888) 999-4805 • (775) 359-2900

#### OVERVIEW:

We are the largest crane service in Reno with 26 cranes based in the Reno Yard, which are 19 more cranes than the next largest crane company in the Reno area. This allows us to give our customers THE solution to their project needs rather than a solution based on limited resources. We also have the ability to draw from Bragg's overall fleet of over 250 cranes if the need arises. This allows us to react to any change or unforeseen circumstance that may arise on your project that may require additional resources. It also means we do not broker our crane services with other crane companies because we lack the ability to do your project seamlessly. When we are booked for your job, OUR equipment and OUR crane crews support your project. To their surprise, some construction companies have experienced third party crane companies arrive on their project when booking with other crane companies because they have made themselves sound bigger and more capable than they actually are. You will not be surprised by another crane company's equipment and crew showing up at your project when you work with us.

#### OUR CRANE OPERATORS AND RIGGING CREWS:

Our crane operators are the safest and best trained operators in the Northern Nevada area. Before we allow our operators to work on your project, we test their qualifications on a particular crane and review their knowledge, skills and abilities through committee before they are allowed to work for you. Although an operator may be NCCCO certified, we go much further to make sure the operator will deliver safe and superior service to our customers.

Our rigging crews that do machinery moves and iron work modifications have the experience and work under the supervision of a project manager with 48 years of hands-on experience to do your project quickly and safely with less man-hours applied to the project. They support themselves with their own rigging trucks, forklifts and jack-and-roll inventory to do your project with less risk because the right equipment is combined with expertise to complete your project ahead of schedule.

Safety is our main priority. We all want to be confident that we can return home to enjoy our families after a day of work. All of our operators are NCCCO certified and all our workers (operators, oilers, riggers and mechanics) are MSHA certified and OSHA 10-Hour certified.

#### OUR REPRESENTATIVE TEAM (CUSTOMER SERVICE, SALES AND SUPPORT):

The Reno Yard has three highly qualified individuals that work together to provide engineering solutions, job walks, project layouts, solutions to rigging and machinery moves, support of project progression and project completion support. These three also act as a liaison between our operation and our customers so you don't have to work with multiple people within our organization to have necessary tasks finalized.

## SERVICE AND SUPPORT:

We support our fleet with two full-time mechanics, two fully equipped mechanic's service trucks and a fully-functional shop located in our Reno Yard.

We also have an extensive local fleet of tractors and trailers to supply equipment and crane accessories to our project locations allowing our job schedule to be dictated by us and not by a subcontracting trucking company.

## CRANE SALES, CRANE PARTS SALES, OUTSIDE CRANE SERVICE WORK:

These services are provided by the Bragg Companies through our sister company, COASTLINE EQUIPMENT, with a location here in Reno, Nevada.

## OUR RENO-BASED CRANE FLEET

Although we can draw from our overall fleet of over 250 cranes ranging from 18-ton to 900-ton cranes (including multiple crawlers), below is a list of cranes based in the Reno Yard. Before you commit to your next project, ask your crane company how many cranes they ACTUALLY own. This may be important as cranes are complex pieces of machinery that do have problems from time-to-time. If your crane company cannot provide a back-up or replacement, it may just shut down your job.

28-ton Hydro Boom Trucks (2)	220-ton Conventional Truck Crane
30-ton Hydro Boom Truck	300-ton Conventional Truck Crane
40-ton Hydro Truck Crane	30-ton Rough Terrain Crane
75-ton Hydro Truck Crane	35-ton Rough Terrain Crane
90-ton Hydro Truck Crane	50-ton Rough Terrain Crane (2)
120-ton Hydro Truck Crane	60-ton Rough Terrain Crane
240-ton Hydro Truck Crane	65-ton Rough Terrain Crane
75-ton Conventional Truck Crane	75-ton Rough Terrain Crane
125-ton Conventional Truck Crane	90-ton Rough Terrain Crane (3)
150-ton Conventional Truck Crane	130-ton Rough Terrain Crane
180-ton Conventional Truck Crane	

Before you consider having a crane or rigging crew dispatched to your project, please allow us at Bragg Crane-Reno to become involved with your project. Our Reno location covers a large territory including:

Carson City	Hawthorne
Gardnerville	Tonopah
Minden	Lovelock
Dayton	Truckee
Winnemucca	North Lake Tahoe
Battle Mountain	South Lake Tahoe
Carlin	Susanville
Elko	Portola
Fernley	Mammoth Lakes
Fallon	Bishop
